

Cabin Round Table Ø130 and Ø150

PRODUCT DESCRIPTION

The Cabin round table offers a solid wood base of either light or dark oak.

A variety of inimitable stone tops in either Pietra Grey marble or Jura Grau Blau limestone give the opportunity to customize according to aesthetic preferences. Distinct refinement and attention to detail are unveiled through the subtle woodwork of the base and the round, sanded edges of the tabletop available in either Ø130 or Ø150.

& DETAILED DESCRIPTION

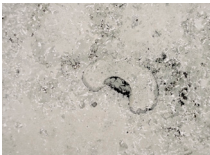

Pietra Grey tabletop

Dark oak base

Jura Grau Blau Limestone tabletop

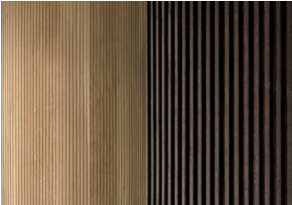

light oak base

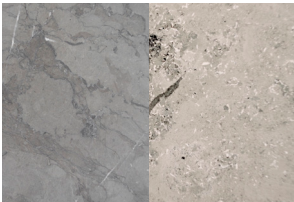

PRODUCT MATERIALS

& SURFACE TREATMENT

The base is made of solid oak for a durable protection of the wood. The light oak is oiled and the dark stained dark and lacquered for a durable protection of the wood.

The tabletop is made of marble and the surface is protected with a sealer from the factory.

PRODUCT CHARACTERISTICS

& MAINTENANCE

Characteristics

Pietra Grey marble

Showcasing a dark grey background the Pietra grey marble features bold, contrasting white and black veins. These veins traverse the surface of the stone in intricate patterns, creating a refined contrast against the grey background. The veins can vary in thickness, from fine and delicate lines to broader, more pronounced streaks. Occasionally, yellow streaks or red burns may be revealed in the veins.

Finish

Honed (matte), sealed with Natural impregnation slightly enhancing the color yet leaving a matte protected surface.

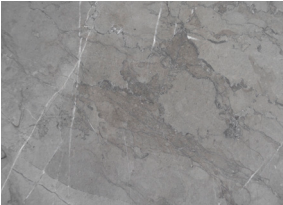

Jura Grau Blau limestone

The light beige jura stone has a lot of details. Fossils and other “impurities” are often seen which gives the stone a nice play of colors. Other details are glass veins being a characteristic of the stone that can appear as cracks but are not! which is a natural part of the stone.

Wood base

The solid oak wood used to produce the base is a natural material, which can be expected to vary in color and grain of the wood. These variations are natural, and it is what makes each base unique and beautiful.
