

FROG + FROG LOUNGE | INDOOR - OUTDOOR

design Piero Lissoni

Armchair and chaise longue available for indoor and outdoor.
Padded armchair
Indoor version: supporting frame in steel with chromed-plated finish or epoxy powder coating gunmetal grey color, burnish color, RAL 9010 white or RAL 9017 black and, on request, AISI 316 Stainless Steel with matt satin-finish. Metal chassis embedded in cold-expanded polyurethane foam with covering in 100% polyester thermally bonded onto a polyamide velveteen backing. Back and seat cushion with performed polyurethane foam structure, covered with acrylic fibre layers. Quilted fabric or leather upholstery. The fabric version only is fully removable by zippers and Velcro fastenings after unscrewing the chassis from the supporting frame.
Outdoor version: supporting frame in Stainless Steel AISI 316 with matt satin finish or Stainless Steel 316 with epoxy polyester powder coating gunmetal grey color, burnish color, RAL 9010 white or RAL 9017 black. Backrest and seat metal chassis embedded in cold-expanded polyurethane foam covered with a heat-sealed waterproof fabric protection. Back and seat padding with preformed open-cell structure polyurethane foam and fiber layers for outdoor with draining fabric covering.
Upholstery, with outdoor fabrics only, always quilted and fully removable by zippers and Velcro fastenings after unscrewing the chassis from the supporting frame. For fabrics with designs/pattern, upholstery in one piece with stitching at sight.

Woven armchair and chaise longue

Notes

The supporting frame of armchair Frog in Stainless Steel AISI 316, has undergone and passed the corrosion test (UNI ISO 9227:93) with issue of relative certificate by CATAS®.

According to the product shape, some coverings cannot be used: please refer to the adaptability sheet in the "Materials" section of the website.

The weaving in Cellulose Rope Profile is not available for the Frog Lounge version.

For the OUTDOOR version, it is recommended to use a "Protective Cover" to improve the longevity of products; please note that the protective cover is made of a water vapor repellent fabric, perfect to prevent and protect from the formation of mold, easily washable with water and soap. Do not keep the fabric folded for a long time when it is wet. For further information about the dedicated maintenance, please refer to the technical sheet available in the "Materials" section on our website. Lastly, we recommend placing the product on terraces or verandas to guarantee its durability over the years.

For leather coverings the "Leather A" or "Leather B" Maintenance Kit is included with the product.
