

VIPP452

Swivel Chair

PRODUCT DESCRIPTION

Originating from the core design of the Vipp451 chair, this chair shares the same choice of materials, an aluminium frame and leather upholstery. In difference, the seat of the swivel chair rests on a pillar that branches out in a 4-legged base on either casters or gliders, allowing for a 360° seat rotation. Available with a black powder-coated aluminium frame and black leather, or a polished aluminium frame with black, camel or green leather, as well as dark sand-coloured textile upholstery.

Swivel Chair

KEY SELLING POINTS

In motion

Born from the original Vipp chair, the Swivel chair is intended for the office and professional conference rooms that require extended seating time. Designed with a swivel base, this chair in motion will prove a flexible seating experience throughout the day.

Industrially Framed

The slender armrests continue straight into the discreet, padded backrest, giving the chair an almost airy expression despite its solid components.

Sit. Spin. Turn.

The soft seat rests elegantly on a pillar that branches out in a four-legged base on either castor wheels or floor gliders allowing for a 360° seat rotation.

Comfortable Comfort

Designed with a fixed height position and a discretely stitched upholstery pattern, the chair invites for comfortable seating for versatile use.

Armrest height: 67 cm / 27 in

PRODUCT MATERIALS
& SURFACE TREATMENT

Powder-coated or polished aluminium.

Upholstery with leather or textile.

PRODUCT CHARACTERISTICS
& MAINTENANCE

LEATHER

Characteristics

This chair is made of pure aniline leather and powder-coated or polished aluminium. The aniline leather is a very vibrant leather that might have natural marks on it, which is completely to be expected and accepted.

Maintenance

In order to maintain the soft and supple quality of the leather, it is important to treat the aniline leather with a leather conditioner. It is important to keep leather out of direct sunlight as this can bleach and dry out the leather. Do not use chemical or normal cleaning products on leather, as this might destroy the leather, only aforementioned leather conditioner and cleaning. For daily cleaning, use a vacuum with a soft brush or wipe the leather with a clean, dry cloth.

TEXTILE

Textile deluxe

The textile is made from a blend of linen, wool, and polyamide and in combination the upholstery holds the best of each material. Linen adds breathability and softness to the upholstery, wool adds structure while polyamide ensures high durability and resistance to abrasion.

The unique blend of materials makes the textile adaptable to various climates, keeping you comfortable in both warm and cool temperatures.

Linen is a natural hypoallergenic material, making it a great choice for individuals with sensitive skin or allergies.

Linen and wool are dyed separately, which gives the textile its distinctive characteristics.

Characteristics

The chair is made of dark sand textile and a polished aluminium frame. This combination works together to create a beautiful and warm appearance.

Textile specifications

The Vipp curated textile is made of 55% linen, 35% wool, and 10% nylon.

Weight: 1400gr/m

Martindale: 100.000
